Boosting Innovation

What can you expect from Transfiere?

Transfiere is the main meeting on R&D&I in Southern Europe to share scientific and technological knowledge, promote innovation and connect science and business.

It is a key professional and multisectoral forum for knowledge transfer, business and networking opportunities, and economic competitiveness.

International Innovation Programme

The extensive programme of thematic panels and conferences brings the most renowned experts in science, technology and business to discuss the latest information about internationalization opportunities, AI, digital transformation, 4.0 industry, open research and innovation, and public procurement of innovative solutions, among many other topics.

Guest Country

Every year Transfiere has a world leader in R & D & i as Guest Country, with the attendance of a broad institutional and business representation of its innovative ecosystem. It also participates in the main areas of the Forum (exhibition area, networking, programme and institutional agenda), which allows to know first-hand its innovation and knowledge transfer strategy.

+ information

Journalism Award

Since 2016 Transfiere celebrates the Journalism Award 'Transfiere Forum' to support Scientific, Technological and Innovative Disclosure and to acknowledge the works released by journalists and specialists about technological innovation developed in Spain and its international convergence.

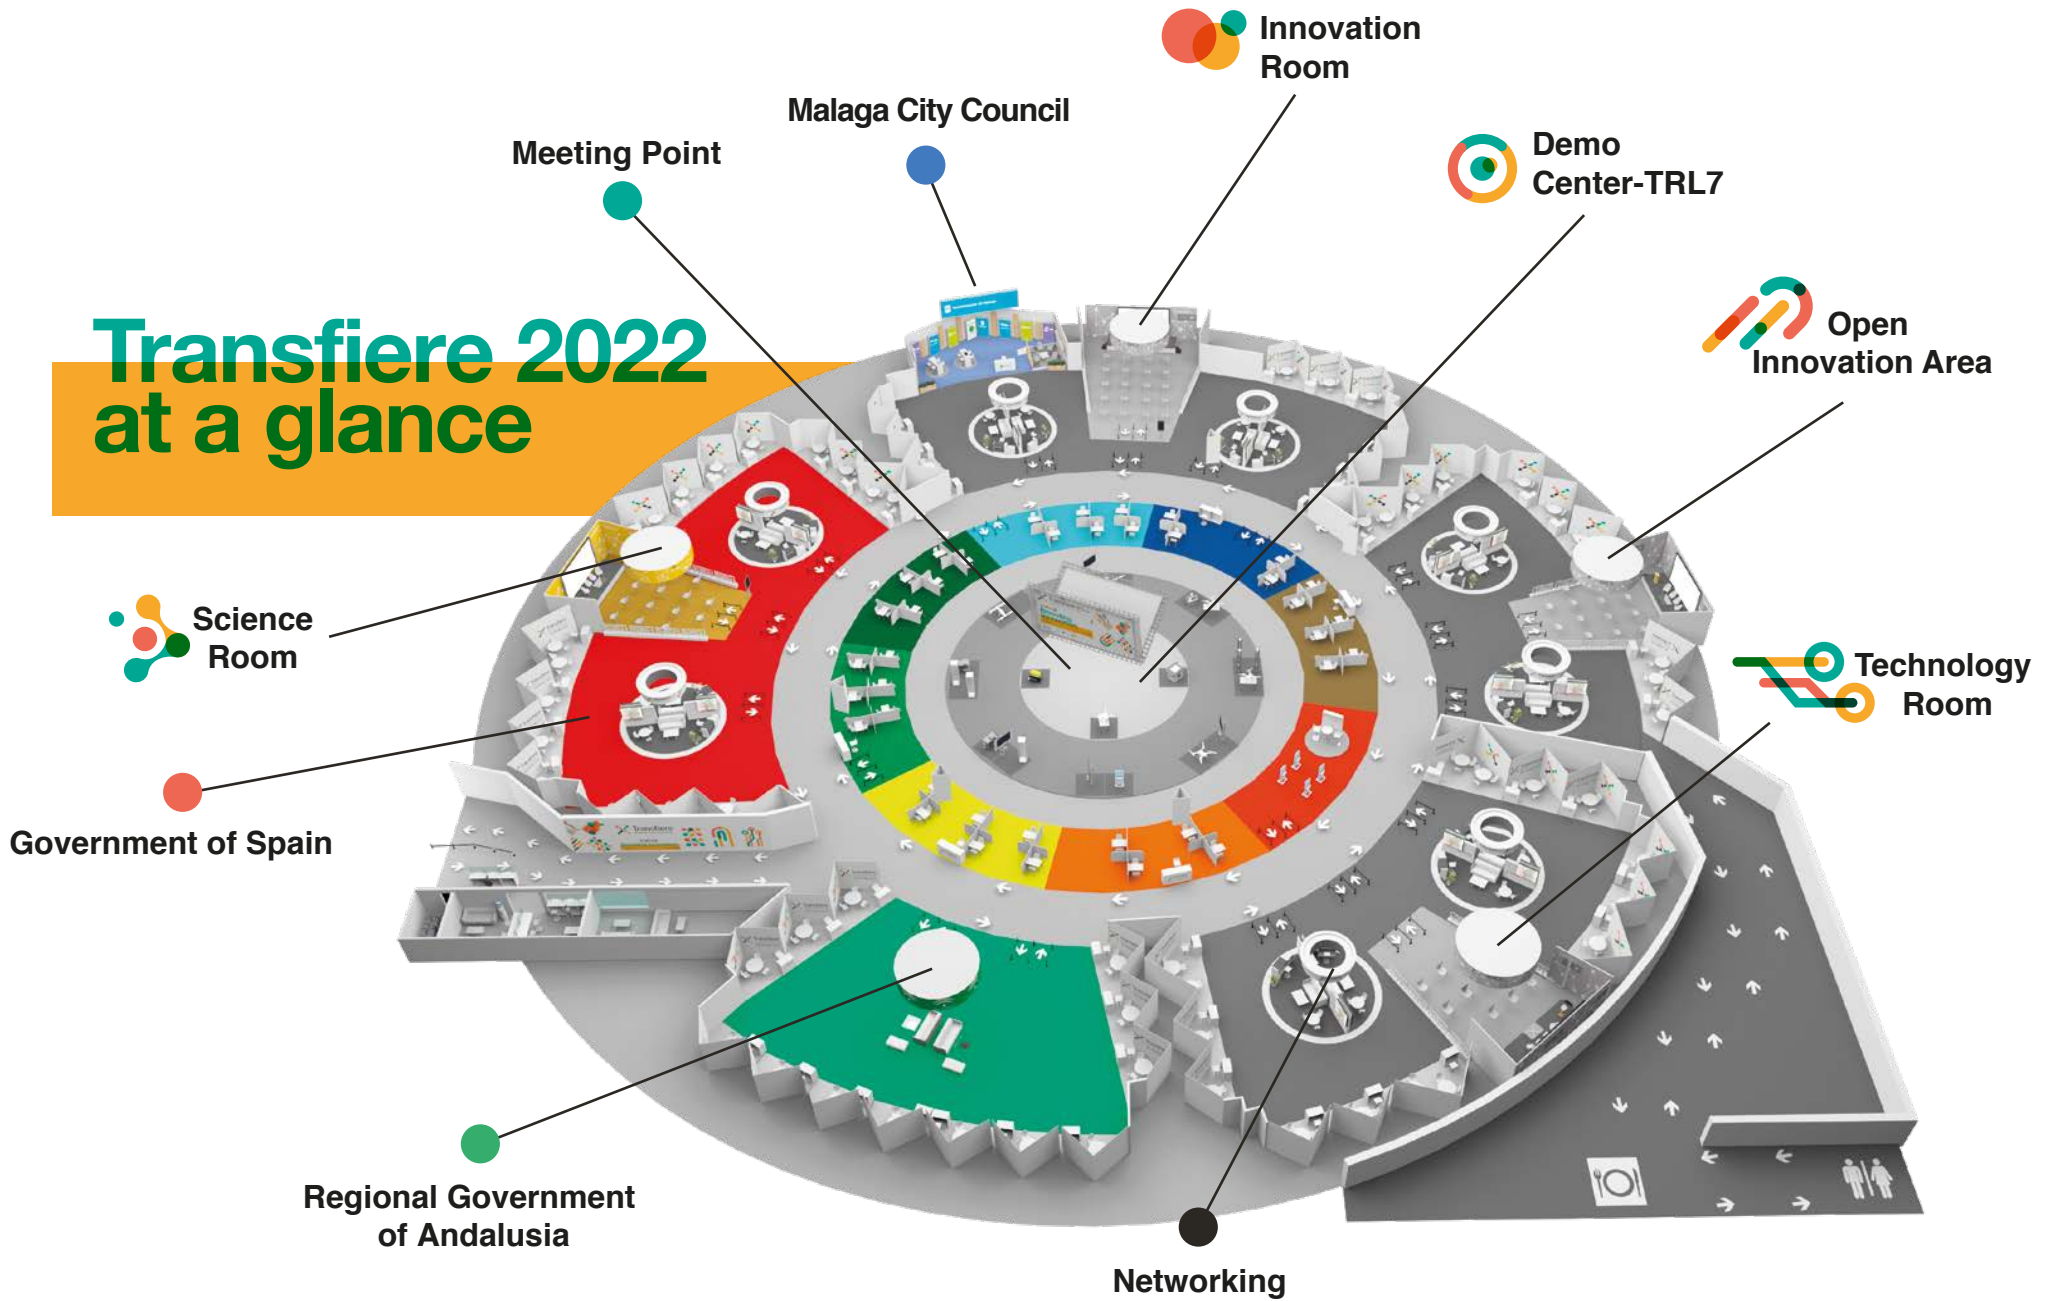

+ information

Technological Challenges

Launching a technological challenge allows companies and institutions to seek innovative solutions to the current technological challenges they face. Top-notch organisations have already launched their challenge within Transfiere
