ORGANISER

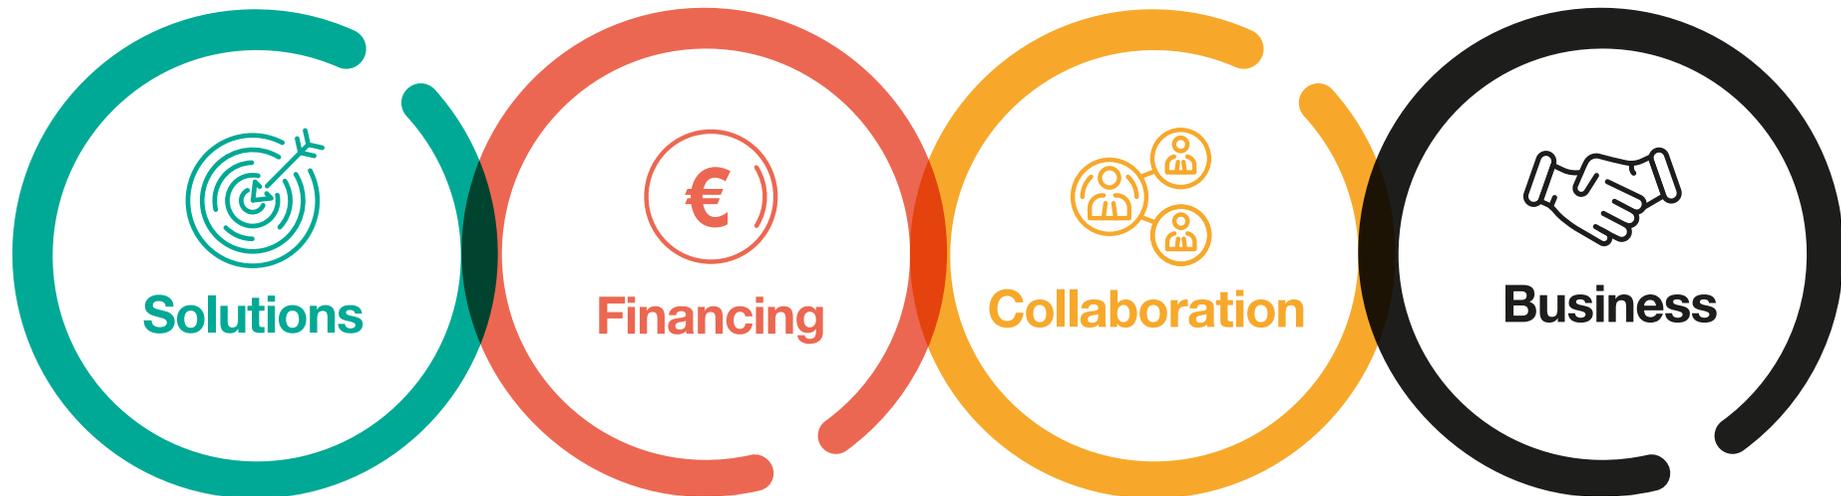

Boosting Innovation

Discover what awaits you at Transfiere:

The premier event in Southern Europe for research, development, and innovation facilitates the exchange of valuable scientific and technological knowledge. It encourages innovation and fosters connections between the scientific community and the business world. This gathering serves as a pivotal space for professionals across various sectors, dedicated to knowledge transfer, enhancing business competitiveness, and fostering networking and business opportunities.

Transfiere, held annually in Malaga, serves as a vital gathering for ecosystem agents. Attendees can forge B2B connections, broaden their network, discover strategic partners, explore promising collaborations, and spotlight innovative products, services, and projects

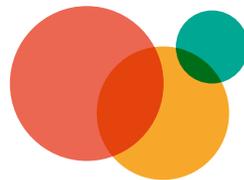

International Innovation Programme

Transfiere's diverse program of thematic panels and conferences offers a gateway to up-to-date insights. Esteemed experts from science, technology, and business share valuable information. Attendees gain detailed perspectives on topics like internationalization, artificial intelligence, digital transformation, industry 5.0, financing, investment, and open research and innovation. These discussions unfold across various event spaces

Open Call for Deep Tech Start-Ups

Coordinated by **Enterprise Europe Network (EEN)** and **The European Business Angels Network (EBAN)**, **national** and **international** startups with deep tech projects have the opportunity to enhance their visibility to national and international investors who are experts in the sector.

+ info

Journalism Award

Since 2016, Transfiere has been celebrating the Journalism Award in Support of Scientific, Technological, and Innovative Communication, with the aim of recognizing the work carried out by journalists and communicators in promoting technological innovation developed in Spain and its international convergence.

+ info

Technological Challenges

Technological Challenges represent a participation modality chosen by companies and institutions that are facing a technological challenge and seeking innovative solutions within the framework of the Transfiere Forum. Top-level companies and entities have placed their trust in the Transfiere Forum for the search of innovative solutions to their challenges.

+ info

Guest country

In each edition, Transfiere features a guest country that is a global reference in R&D+i, bringing a significant institutional and business representation from its innovative ecosystem. The guest country in 2025 will actively participate in the main areas of the Forum (exhibition area, networking, program, and institutional agenda), providing an opportunity to firsthand learn about its innovation and knowledge transfer initiatives.

+ info

Ágora

The **Agora space** offers professionals who actively engage with a unique opportunity to immerse themselves in a forum for reflection and debate on cutting-edge topics that will shape the future of the innovation ecosystem
