ORGANISERS

Transforming innovation together.

Where Innovation Becomes Opportunity

Transfiere is the leading forum for knowledge and technology transfer in Southern Europe — a key meeting point where science, business, and government come together to turn ideas into concrete solutions, foster synergies, and generate economic and social impact.

Each edition brings together the main players of the innovation ecosystem — researchers, startups, universities, companies, investors, and public administrations — to share progress, activate projects, and open new paths of collaboration in a highly specialized environment.

A Strategic Platform to Drive Connections, Business and Innovation

Transfiere promotes the circulation of knowledge and its direct application to the productive fabric, creating a space where research potential, business initiative, and institutional commitment converge.

The event provides access to disruptive technological trends, funding opportunities, innovative solutions, and contact networks to foster strategic alliances in a global context. It has become a key environment for those leading innovation in Spain and Europe.

International Innovation Programme

Transfiere brings together scientific, technological, business, and institutional leaders in Málaga to address the major challenges of today and tomorrow.

Through panels and conferences, the forum covers current topics such as artificial intelligence, digitalization, collaborative research, deep tech, sustainability, Public Procurement of Innovation, R&D tax incentives, and open innovation models.

It is a unique space to access specialized knowledge, identify new opportunities, and connect with the key drivers of transformation across all sectors of the innovation ecosystem

Initiatives that Drive Transformation

Open Call for Deep Tech Start-Ups

Coordinated by Enterprise Europe Network (EEN), national and international startups have the opportunity to increase their visibility before national and international investors who are experts in the sector.

Journalism Award

Recognizes the work of journalists and science communicators who promote technological innovation developed in Spain and its international convergence.

Innovative Company Award

An initiative in support of business innovation as a guarantee of competitiveness and a development model. Its goal is to recognize the work and commitment of companies that participate annually in the forum.

Guest Country

Each edition features a guest country, internationally renowned in R&D&I, which participates with broad institutional and business representation of its innovation ecosystem.

Invited International University

Each year, a leading international academic institution actively participates in the forum, contributing advanced knowledge and its most innovative research projects.
