ORGANISERS

Transforming innovation together.

From knowledge to opportunity

Transfiere is Southern Europe's leading forum for knowledge and technology transfer, firmly established—after fifteen editions—as a **key platform within Spain's R&D&I ecosystem.**

Transfiere not only represents the national innovation ecosystem: it brings it together, activates it and enables it to operate, connecting science, business and public administration **to transform knowledge into solutions with economic and social impact.**

Each edition brings together researchers, start-ups, universities, companies, investors, intermediary organizations and public administrations **to share advances, drive projects and unlock new avenues for collaboration** in a highly specialized environment.

A strategic platform to develop new partnerships, projects and business

Transfiere facilitates the direct application of knowledge within the productive economy, creating an environment designed to foster collaboration, investment and the development of new opportunities.

The event connects scientific and technological capabilities with business demand, investment and public policy, fostering strategic partnerships within a global context.

International Innovation Programme

Transfiere brings together leading scientific, technological, business and institutional leaders in Málaga to address today's and future major challenges from an applied perspective.

Its program is structured into five specialized forums, aligned with the priorities of the R&D&I system. Through panels and conferences, topics such as artificial intelligence, digitalization, deep tech, funding, sustainability, cutting-edge healthcare, Public Procurement of Innovation, dual-use technologies, defense, aerospace, advanced materials and industrial property are addressed.

A unique forum to access specialized knowledge, identify opportunities and anticipate the trends that will shape the evolution of science, technology and industry.

Innovation redefined through key initiatives

Open Call for Deep Tech Startups

Coordinated by Enterprise Europe Network (EEN), national and international startups have the opportunity to increase their visibility before national and international investors who are experts in the sector.

Journalism Award

Recognizes the work of journalists and science communicators who promote technological innovation developed in Spain and its international convergence.

Innovative Company Award

An initiative in support of business innovation as a guarantee of competitiveness and a development model. Its goal is to recognize the work and commitment of companies that participate annually in the forum.

Guest Country

Each edition features a guest country, internationally renowned in R&D&I, which participates with broad institutional and business representation of its innovation ecosystem.

Invited International University

Each year, a leading international academic institution actively participates in the forum, contributing advanced knowledge and its most innovative research projects.
